Testimonials

SHALERI, GEORGIA

“This clinical internship, carried out within the framework of the Erasmus+ program, proved to be an exceptionally enriching, diverse, and rewarding experience, both professionally and personally. I spent many valuable and memorable days in academic and clinical settings, including the practical skills center, operating theatres, and the intensive care unit. The program allowed me to work alongside highly qualified specialists, expand my clinical knowledge, and establish meaningful professional and personal connections.

I am deeply grateful to everyone who contributed to making this internship period truly meaningful and unforgettable.”

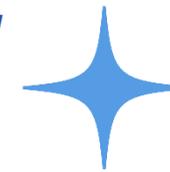

SOFIA, UKRAINE

“Participating in the exchange programme at Józef Gołuchowski University of Applied Sciences was an extremely valuable educational and professional experience for me. From the very first contact, I received full organisational support, and the commitment and professionalism of the programme coordinator greatly facilitated the entire exchange process. The internship at the Hospital Emergency Department in Ostrowiec Świętokrzyski allowed me to gain real clinical skills under the supervision of an experienced team. The programme combines a high level of education with a friendly atmosphere and excellent organisation.”

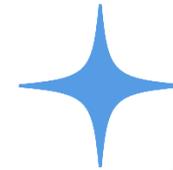

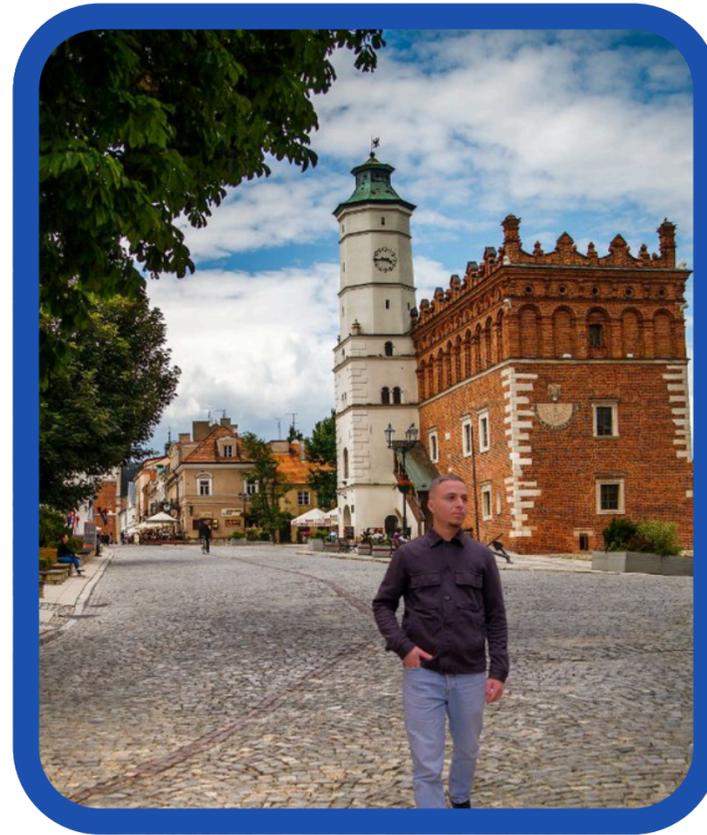

ORLANDO, ALBANIA

“My internship in Ostrowiec Świętokrzyski, Poland, as part of the Erasmus+ exchange program was an extremely valuable and enriching experience, both professionally and personally. Beyond the clinical experience, the university placed great importance on cultural integration. Various meetings and activities were organized to help international students discover Polish culture and traditions. Overall, my internship in Ostrowiec Świętokrzyski was a wonderful and highly rewarding experience that I would strongly recommend to other international students.”
